HHS RAMS CLASS OF 1975

May 23, 2024

Aloha Queen Taylor and honorable court ~

Billions of fans support and follow you around the world, and our world is dark and chaotic at this time. You bring LIGHT and HOPE to all who have open hearts. Thank you graciously from the Aloha State of Hawai'i.

I speak for 100,000s of oppressed Swifties in the State of Idaho. Idaho is ranked the Most Conservative state in the nation — so conservative that 13 counties in Oregon now want to secede from their state and merge with Idaho — creating New Idaho. There are strong KKK-type groups in the state. Conservative officials enforce some of the most draconian policies on women's reproductive health rights, oppress minorities and exclude many marginalized groups. This entrenched minority holds and wields unjust and repressive power over millions.

Idaho is a beautiful place, but dominated by a minority of old, angry and fearful White males. I criticize this cohort as I am also a White male. White folks are not all the same, yet society frequently groups us as such. I am pleading for your help. They need your light and hope to heal!

Although you have many thousands of fans who download your music, watch videos and connect virtually with you, our population in Idaho is too small to attract your team to visit and perform. We can't pay much, and frankly, your financial team likely could buy our small communities with what they make in interest before lunch each day.

WE REQUEST your presence. WE PLEAD for your gracious and contagious light and hope to appear briefly in our majestic state.

I serve voluntarily as the President of the Class of 1975. We are planning a reunion for late July / August 2025. We are a poorer school district and suffered a tragic fire to our largest facility — D Building. This facility served as our cafeteria, dance and social space, activities and sports complex, training and locker rooms, as well as classrooms. We are seeking to raise donations to help district officials rebuild the much needed facility.

I'm not asking you for money. Your team could generously donate enough likely without a concern to rebuild immediately. We are not seeking FREE. In Idaho, we like to think of ourselves as resilient, strong and independent people. Asking for FREE runs counter to our culture.

Instead, we are asking for YOUR LIGHT and HOPE. To us, your inspiration is far more priceless than financial rewards. We are asking you to visit us !!!

We could never PAY you what you are worth. We propose something of higher and priceless value in return. We ask you and your honorable royal court to attend our small class reunion event. We will coordinate with your handlers to arrange dates and times. We ask for one hour of your gracious love and spiritual energy. How about 30 minutes of song and dance; 30 minutes of autograph signing, and meet & greet time with your Swiftie fans?

In return, we propose the following:

Our comfy limos will whisk you and team away on a secluded, pristine adventure guided by local experts who will show you some of the most amazing and breathtaking country left in the world. Each day human beings advance like ants toward a picnic to fill and develop these remote areas. This untouched beauty will not be around for long.

Let us reward your generosity with an unforgettable trek into lands few human beings have seen or experienced. Imagine a gentle horseback ride packing through tall timber of fir trees fragrant with pine, and quaking aspen forests filled with sweet songs of mountain birds, chipmunks, squirrels and rabbits. We'll break through into vast meadows filled with tall Rocky Mountain natural grasses and wild alfalfa. You'll see up close many herds of deer, elk — possibly a moose or two — as they come to graze and stare at you in curiously and wonder.

We'll meander lazily next to tall canyon walls watching birds of prey, such as hawks, golden and bald eagles, as they navigate updrafts and the thermodynamics of flight. You will see beauty in Idaho's nature that you represent so eloquently in your songs and music.

We'll guide you down stunning river waterways ... stopping in eddies to fish and swim ... and then return to base camp for rest and dinner. We'll honor your team with a roaring camp fire, grill fresh-caught trout and garden veggies, chicken, and some of the world's most tasty Angus beef for steak and strip lovers. You can bring your guitars and sing harmoniously around the camp fire, as your voice and notes echo off distant mountains and flow through ravines. You will experience God's Country like never before. You care about saving the environment. Our adventure will reinforce the millions of reasons why.

We can't offer the Queen of Light and Hope much; we do however offer you ALL that we have. We promise a breathtaking, soul-riveting and heart-opening exchange for a brief time of your extraordinary talents and presence.

If you can find the energy in your likely exhausting days and demanding schedule to bless us with your presence and grace, the 100,000s of Idaho Swifties would be forever in your debt. You will inspire generations with your magical spirit of goodness and eloquent charm.

With love from Idaho and aloha from Hawai'i, we humbly ask that you consider our request to bring HOPE and LIGHT to this small corner of one of the darkest regions of America.

Thank you so much for your heroic efforts and endless positive energy,

Scott Goold, president
Class of 1975
Highland High School

“I Believe We Can”
